WHAT IS HYDROMASSAGE?

HydroMassage is a unique massage system that provides 10 - 15 minutes of stress relief and relaxation for guests to enjoy during their stay.

Enjoyed by all guests, HydroMassage is a turnkey mini-spa solution to ease the aches and pains of traveling. HydroMassage is fully unattended and can be placed in your hotel lobby, onsite fitness center or spa to allow convenient, 24-hour access for your guests.

Featuring a simple, personalized and effective design, your guests can truly relax and unwind with HydroMassage water massage technology.

KEY BENEFITS FOR HOTEL OWNERS

Enhanced Guest Experience

Provide stress relief and relaxation for guests after a long day of travel

Great Promotional and Guest Loyalty Tool

Advertise "All guests enjoy massage with your stay" and differentiate yourself from the competition

\$1-\$3 Service Fee Recommended

Allows all guests to receive 10-minute massages and generates additional income for your hotel

PROVEN SUCCESS

“

HydroMassage has been a great amenity in my hotel. It has increased our hotel loyalty score and guest satisfaction. It also enabled my hotel to generate additional revenue for every room reservation.

”

- John Moradi, Comfort Inn North
St. Petersburg, FL

LET YOUR GUESTS DO THE TALKING

After using HydroMassage during their stay, positive reviews from satisfied guests on social media and travel review sites help to enhance your online presence and increase the likelihood of future bookings.

"COMFORT & Comfort Inn"

Suggestion: well worth the stay

Reason for Trip: My son played football at Tropicana Field

Our stay there was short, but amazing. I feel that the staff & employees go out of there way to make it an amazing experience, which I appreciate greatly. We were kept quite comfortable. Also, the aqua massage was BONUS!

"Stay"

★★★★★ Recommended

Hotel had great service and the massage chairs helped alot. Also, I'd highly recommend this hotel...nice people. Many great places to eat around town...in town for business and landed here...one of the best hotels I've stayed at.

Review of Comfort Inn North

★★★★★ Reviewed March 18, 2017 via mobile

Hydromassage was very relaxing after walking around all day! Nice new feature to this hotel. Worth the money and easy to operate. You can read articles while getting the massage or just close your eyes and relax! Your choice, I say go for it!

Thank a member

"Really cool massage chairs"

★★★★★ Recommended

Really cool staff. Everything super clean, great location, great place to stay with family if you are looking to stay close to downtown at good price, a plus is that they have really cool massage chairs at lobby.

Thank a member

"Satisfied Customer"

★★★★★ Recommended

Great stay. Loved the breakfast, complimentary massage was great. Exercise room awesome. Keep up the good work. I will be back rooms were super clean. Staff was incredible. Polite. Worth every penny!!

Thank a member

★★★★★ — Recommended

Reason for Trip: needed hotel room while our home was treated for termites!

Good value, room was clean and comfortable, liked the free breakfast and enjoyed the complimentary hydro massage chair experience in the lobby!

HYDROMASSAGE | LOUNGE MODEL

After 30 years of innovation, we've developed our most comfortable, durable lounge yet: the HydroMassage Lounge 440X. New in 2019, this addition to our collection provides a smoother, more focused massage than previous models as well as upgraded features to maximize your experience. Let us introduce you.

With a premium Obsidian Black and Atomic Silver finish and fully customizable LED lighting, the Lounge 440X will complement any existing branding at your business.

User satisfaction is the top priority with the new Lounge 440X. With 7" (18cm) more massage coverage and a smoother, more focused massage, the newest HydroMassage product does not disappoint.

Accessibility for on-screen features and entertainment options during the massage—including welcome screens—make the Lounge 440X our most immersive and intuitive experience yet.

Available in two new models

440X / 450X

HYDROMASSAGE.COM

Dimensions: 91" L (231 cm) x 32" W (81 cm) x 43"H (109 cm)

Weight: 285 lbs (129 kg) with 12 gals (45L) of distilled water

HYDROMASSAGE | BED MODELS

As the industry pioneer, the HydroMassage 340/350 models are best equipped to meet the needs of any worldwide fitness club, chiropractic office, salon, hotel—and especially, your business.

The technology was first utilized by chiropractic, physical therapy, and medical offices.

HydroMassage fits well in clubs seeking to provide members with "total wellness solutions"

Results are best when HydroMassage Beds are located in a spa-like, semi-private area, allowing users to fully relax during the massage

340 / 350

MESSAGE FROM THE FOUNDER

After 30 years in the business, my passion and entrepreneurial spirit to create the most innovative massage experience in the world is just as strong as it was in 1989 when the company was founded. Having manufactured 17 generations of HydroMassage products, there are three guiding principles that drive every decision we make:

INNOVATION AND USER EXPERIENCE

Our focus will always be on the wellness and satisfaction of our customers. For 30 years, we have designed, engineered and manufactured more than 17 generations of innovative HydroMassage products. We're dedicated to refining our products until we arrive at the solution people want to come back to use again and again.

CUSTOMER FOCUS AND SUPPORT

Our Tampa Bay support center is sustained by 13 full-time technicians ready to answer your call. By partnering with HydroMassage, our customers are supported with:

- + Real-time product monitoring
- + Proactive alerts should any concerns arise
- + Unlimited customer support calls
- + Live emergency support on weekends
- + Maintenance reminders
- + More than 300 trained service providers nationwide
- + Technician certification program

MANUFACTURING AND QUALITY CONTROL

To uphold our high standards of product quality, all HydroMassage products are manufactured in the USA at our 50,000 square ft. headquarters based in Tampa Bay, Florida. Throughout the production process, each unit must successfully pass through multiple levels of inspections, an automated 24-hour testing process, and an extensive 268-point quality control checklist.

The proof is in the numbers. Our durable frame-and-tank design is life tested with a 300-pound test dummy for more than one million massage cycles—simulating more than 50 + years of usage. Additionally, our Proprietary Massage Manifold is life tested for the equivalent of more than 20 years of usage.

Thank you for your interest in HydroMassage,

PAUL LUNTER
