A FOUNDATION OF OVER 60 YEARS. THE EXPERIENCE OF FITNESS APPLIED TO PHYSIOTHERAPY.

AT PAVIGYM, WE PROUDLY STATE THAT WE ARE THE **WORLD'S LEADING PROVIDER OF TECHNICAL FLOORING.**

Our expertise, spanning more than 60 years, has enabled us to collaborate with top professionals in fitness training and rehabilitation, allowing us to design solutions that meet the demands of even the most demanding physiotherapy clinics.

By managing the entire production process, we can ensure superior quality, tailored to the specific needs of both physiotherapists and their patients, delivering the **safety and comfort** required in rehabilitation environments.

UNDERSTANDING THE **KEY CHALLENGES** IN PHYSIOTHERAPY FLOORING

KEY CONCERNS FOR CLINICS

- Need for durable flooring
- Cost-effective installation
- Keeping flooring hygienic
- Comprehensive service support

CHALLENGES FACED BY PHYSIOTHERAPISTS

- Minimising disruptive noise & vibration
- Customising each exercise routine
- Effective patient guidance

NEEDS OF PATIENTS

- Engaging rehabilitation experience
- Clear understanding of exercise instructions
- Enjoy the environment

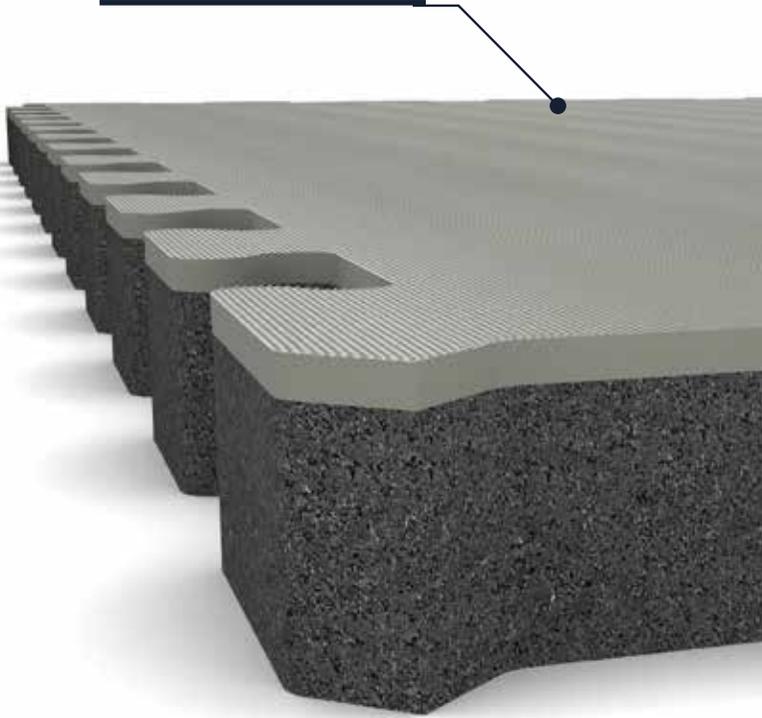

WE ARE PUTTING THE LATEST INNOVATIONS IN PHYSIOTHERAPY FLOORING AT YOUR FEET.

THANKS TO OUR
VIRGIN RUBBER
FLOORING.

WHY IS **VIRGIN RUBBER** THE IDEAL FLOORING SOLUTION FOR YOUR PHYSIOTHERAPY CLINIC?

By using virgin rubber in our flooring, we can offer the highest quality product on the market for physiotherapy clinics. Virgin rubber provides the safety, comfort, and hygiene needed in rehabilitation environments.

ADVANTAGES OF VIRGIN RUBBER

LONG LASTING FLOORING

+50% DURABILITY

Our virgin rubber flooring is highly wear-resistant, reducing the frequency and costs of installation, replacements and maintenance.

QUIET ENVIRONMENT

**+20% ACOUSTIC
INSULATION**

Our flooring's sound-absorbing properties minimize disruptive noise and vibrations, creating a calm atmosphere for effective treatments.

INJURY REDUCTION

**+20% ACOUSTIC
INSULATION**

The optimal friction coefficient of our flooring absorbs movement effectively, decreasing the risk of injuries during therapy sessions.

SAFETY AND HYGIENE

**CLEANER SURFACE
NO ODOURS**

Our flooring is designed to be easy to clean, reducing risks and ensuring a safe environment for patients.

ECO FRIENDLY & SUSTAINABLE

**-200M³ WATER
CONSUMPTION**

Our solutions minimise resource consumption and extend product lifespan, promoting ecological and social responsibility.

ENHANCED PATIENT GUIDANCE

**CUSTOMIZATION
& DESIGN**

Our flooring markings options will guide patients during their exercises, enhancing their understanding and execution of rehabilitation routines.

A SOLUTION TAILORED TO EACH SPACE

FUNCTIONAL TRAINING ZONE

FUNCTIONAL

Designed to absorb impacts and improve stability. Comfortable and smooth, this flooring withstands the impact of functional training materials without marking.

MACHINE AREA

PERFORMANCE +

Designed for resistance and elasticity, it reduces noise and vibrations while preventing wear.

TECHNICAL TRAINING ZONE REHABILITATION | STRETCHING

ACOUSTIC SOLUTIONS: ACOUSTIC & BIGJAG

The first all-in-one acoustic solution with Pavigym's best flooring layer integrated.

RECEPTION | WAITING AREA

TRAFFIC

The durability and aesthetics of wood for transit areas, reception, and consultation rooms.

TECHNICAL TRAINING ZONE REHABILITATION | STRETCHING

COMFORTGYM

Antibacterial, durable, and customisable mats.

EXTREME & ENDURANCE

Two different finishes, ideal for technical areas and rehabilitation training.

TURF

High-density artificial turf (84,000 tips/m²) offering unique levels of grip, resistance, and comfort. Ideal for both indoor and outdoor areas.

A COMPLETE SERVICE: FROM DESIGN TO AFTER SALES

UNIQUE FLOORING

A team of product specialists will guide you through the decision-making process if you are unsure which flooring, markings or training service you need for your centre.

BESPOKE DESIGN

An international team of architects actively involved in over 4,000 projects since 2018, ensuring your clinic stands out.

AFTER-SALES SERVICE

A multilingual team ready to resolve your questions or issues within 24 hours and to support your installation throughout the 5-year product warranty period.*

3 LEVELS OF SERVICE

Our experience, combined with an in-depth understanding of trends, has allowed us to continuously expand our range of products and services.

WHAT OUR CLIENTS SAY ABOUT US?

GIANCARLO CASATI

ITALY

"All our patients achieve the desired results, which is why they keep coming back. A competent physiotherapist must be able to create personalised circuits and know how to adapt PRAMA therapeutic training to the specific needs and goals of each patient."

JULIA AKINWALE

GERMANY

"People of all ages love training with PRAMA. Thanks to the different intensity levels offered by the programme library, we can meet the needs of all users, regardless of their age or needs."

HAKI KADRIA

GERMANY

"Durability and resistance were the crucial factors when selecting the best flooring option for us. Seven years after installing Pavigym Extreme, we couldn't have made a better choice."

HENRIK GOCKEL

GERMANY

"We chose Pavigym Functional over wood flooring not only for its aesthetics and versatility but also for its value for money, which has significantly reduced installation and maintenance costs. We're delighted with the choice, and so are our clients."

**NOW THAT YOU
HAVE THE BEST
FOUNDATION,
FOCUS ON
OFFERING A
UNIQUE SERVICE.**

CUSTOMISED TRAINING SOFTWARE FOR EACH PATIENT.

Personalised training plans will help increase patient engagement and further differentiate you from other centres.

Bootiq is an on-demand training software with customisable exercises and levels.

At Pavigym, we help you implement it and turn it into a key differentiator.

- Extensive exercise library.
- Personalised routines for a more tailored experience.
- Remote monitoring of patient progress.
- Real-time evolution of routines.

PRAMA

“TURNKEY” IMMERSIVE EXPERIENCE.

Entering a PRAMA space offers a unique rehabilitation experience based on gamification.

A world of light and sound motivates the patient, adding excitement and interaction to the recovery sessions.

The design of PRAMA centres can be adapted to the available space and your patients' needs, something also offered by Pavigym to ensure your clinic's success.

- Custom space design and markings.
- Personalisation with lights, music, and audiovisuals.
- Programmes connected to recovery goals.
- All the stimulating potential of gamification.
