FLOORING SOLUTIONS**

PAVIGYM

THE PREMIUM FLOORING MANUFACTURER.

PAVIGYM offers durable, sustainable, and smart solutions for gyms, studios, hotels, sports centres, physiotherapy clinics. Enhance training with durability, comfort, and innovation in every step. Choose from a wide range of durable, soundproof, shock-absorbing and sustainable flooring solutions. Mix and match options to suit your space's needs, ensuring safety, comfort, and style.

PAVIGYM ENDURANCE

High-density flooring designed for strength, cardio and medium free weight areas, including plate-loaded equipment and functional training areas. Made from virgin rubber, it offers impact resistance, fire safety certification, and a sleek, customizable design.

100x100cm • 7mm

PAVIGYM ENDURANCE S&S

Designed for heavy-duty and weight training areas where a high level of resistance and sound insulation is needed, withstanding impacts from weights while protecting the subfloor. Unique aesthetics thanks to its colourful and sophisticated design options.

100x100cm • 22mm

PAVIGYM WEIGHTLIFTING

The perfect combination of stability, friction and resistance for weightlifting zones. Designed to work seamlessly with the S&S range, it replaces traditional wooden platforms, offering the same consistency with superior durability and resilience of virgin rubber.

100x100cm • 30mm

PAVIGYM MOTION

Specifically designed for aerobic and group-x rooms. Motion provides controlled friction, ensuring grip and freedom of movement while reducing fatigue, protecting joints and minimizing surface marks.

100x100cm • 9mm

PAVIGYM TRAFFIC

High-resistance vinyl flooring for high traffic areas (hallways, offices, changing rooms, ...), offering a wood- or stone-inspired design. Waterproof and easy to clean, it's available in glued-down or click-system versions for smooth and uneven subfloors.

18,5 x 122cm | 17,8 x 121,9cm | 45,7 x 91,4cm • 2,5mm

CLIC: 17,8 x 121,9cm • 5 + 1mm / 45,7 x 91,4cm • 5+1mm

PAVIGYM EXTREME

Superior damage resistance for medium free weight areas, strength, fitness, and functional training zones. Made from recycled virgin rubber, it delivers high shock absorption, durability, and a sustainable, urban aesthetic. Its speckled design ensures a polished look.

100x100cm • 7mm

PAVIGYM EXTREME S&S

Ideal for heavy-duty and weight training areas where maximum level of resistance and sound insulation is needed. Its bold and urban aesthetics enhance the atmosphere of any space, inspiring any workout and ensuring a quieter and comfortable training experience.

100x100cm • 22mm

PAVIGYM SOLID

Outperforming traditional recycled rubber for strength & free weight areas, its top virgin rubber overlayer protects subfloors and gym equipment while maintaining a refined look and reliable performance under intense, long-term use.

TILES 100x100cm • 15mm | 20mm | 30*mm | 40*mm

*30mm & 40mm with antishock base

PAVIGYM MATS

Durable, hygienic, and customizable exercise mats designed to enhance any workout space. Made from high-density EVA foam, these latex-free and PVC-free mats offer superior resistance, exceptional comfort, and brand personalization options that elevate both performance and aesthetics.

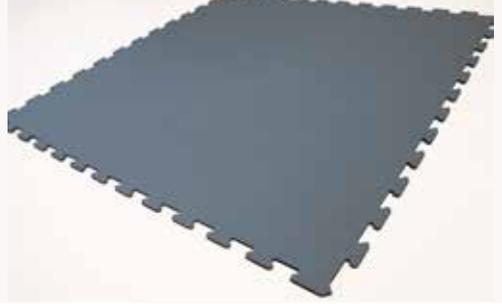

140x60 cm | 180 x 60 cm • 7mm | 15mm

PAVIGYM TURF & CUSTOM TURF

Top artificial grass for indoor & outdoor training zones, ideal for cross-training, weight training, and sled drags. Its dense surface ensures excellent grip, resistance, and durability. It can be customized with logos or markings.

Rolls 2x10m / 2x15m • 11mm

Rolls 2m x custom length • 16mm

PAVIGYM'S DNA

Sustainable

Durable virgin rubber with a long lifespan & eco-friendly production, reducing waste.

Long Lasting

Withstands heavy impacts and intense use, ideal for high-traffic environments.

5-year warranty

Most of our products offer extended coverage for durability and reliability.

Safe & hygienic

Easy to clean & maintain, providing a germ-free & odourless environment.

Acoustic Insulation

Minimise noise & vibration for a quieter training space.

Customisable

Adapt colours, markings or logos to reflect your brand's identity.

Optimal grip & safety

Engineered for stability, reducing slips and injuries during workouts.

Easy to install

Modular tiles install without adhesives ensuring quick & easy setup and repositioning.

PAVIGYM

Our mission is to create high-performance, durable, and sustainable solutions that improve training environments in gyms, fitness studios, and physiotherapy clinics. Our expertise extends beyond flooring—we develop impact-resistant surfaces, acoustic solutions, and interactive training technology to enhance both performance and user experience.

That's what we do.
