

THE PREMIUM MANUFACTURER OF TECHNICAL FLOORING

Get the right floor, that will match your brand image and ensure the best user experience.

Our team's goal is to help you understand the reasons why you should use the right flooring.

Delineate your room space based on specific objectives, or use a combination of several flooring types with outstanding performance to maximise durability, acoustic insulation, shock absorption and ensure the right slip resistance for each area.

Whatever you want to do with your flooring, we have a solution for you.

Discover our wide range of products and colours to get exactly what your gym needs.

THE BASIS OF FITNESS

PAVIGYM

THE BASIS OF FITNESS

PAVIGYM

We want to prevent you from using the wrong floor in the wrong area.

Our goal is to help you choose the right sport flooring for the right purpose, with an inimitable aesthetic that projects your brand image, ensuring the best user experience, while understanding why it is the best choice.

This is what we do.

TECHNICAL FLOORING SOLUTIONS

PAVIGYM MOTION

Comfort, resistance and controlled friction. The first virgin rubber flooring specifically designed for group classes and other group activities. | 90x90cm • 9mm

PAVIGYM PERFORMANCE+

100% resistance and elegance in your cardio, fitness & functional training areas. Virgin rubber. Prevents slipping of machinery and absorbs both noise and vibration. | 90x90cm • 5mm

PAVIGYM FUNCTIONAL

Designed to absorb impacts and improve stability in functional training areas. Comfortable and soft, withstands drops of functional materials without scratching. | 90x90cm • 20mm

PAVIGYM ENDURANCE

Its high density provides supreme resistance in standard cardio, functional training & free weight (medium weight) areas. Great aesthetics and customisation options. | 90x90cm • 7mm

PAVIGYM EXTREME

Superior level of damage resistance in free weight (half weights), fitness & functional training areas. High shock absorption against falling objects. | 90x90cm • 7mm 100x100 • 7mm

PAVIGYM TRAFFIC

The most resistant and elegant vinyl flooring for high traffic areas (reception, corridors, offices, changing rooms, etc). Waterproof. Also available in click format (without adhesives). | 18,5x122cm / 30,5x60,9cm / 23,7x 152cm / 60,9x91,4cm • 2,5mm

PAVIGYM WEIGHTLIFTING

The perfect combination of stability, consistency, friction and resistance for the weightlifting area. Provides the same consistency as a wooden flooring but with superior strength and durability. | 90x90cm • 22mm

PAVIGYM TURF & CUSTOM TURF

The best artificial grass solution for both indoor and outdoor areas. Ideal for all types of training including cross training and weight training, thanks to its high stitch density. | Rolls: 2x10m o 2x15m • 11mm Roll 2m x custom m • 22mm

PAVIGYM ENDURANCE S&S

Extra thickness for extra protection against impacts from heavy loads. Unique aesthetics in free weight and strength training areas, where enhanced impact and vibration insulation is essential. | 90x90cm • 22mm

PAVIGYM EXTREME S&S

Specifically designed for heavy duty and weight training areas where the highest level of resistance and noise insulation is required. | 90x90cm • 22mm 100x100 • 22mm

ACOUSTIC SOLUTIONS

UNDERSTAND NOISE AND TRANSFORM IT INTO SILENCE

360° acoustic solutions specially designed for fitness facilities and adapted to all budgets.

DIFFERENT NEEDS, DIFFERENT SOLUTIONS.

- Wide variety of alternatives to cover all demands.
- Tested solutions with our flooring and under drop of 50kg weights from 50cm.
- Certified according to NORM UNE-EN ISO 10140-3
